

Sprint 2 Report

–Split The Tab IOS Version-

The commuters

Sprint Start Date: Feb 4th 2018

Sprint End Date: Feb 17th 2018

Revision 1 (2/17/2018)

Actions to stop doing:

- We should stop separating Front end (IOS app side) and back end (Firebase side), because it leaves the other members in the dark about what's going on.
- Schedule more time for the initial learning curve.

Actions to start doing:

- Schedule more time for the initial learning curve, since it took more time than initially allocated.
- we should hold some coding sessions, different schedule for all of us made it hard to hold them as much as we'd have preferred .

Actions to keep doing:

- Keep having our scrum meetings at 3:40pm, it's still convenient for everyone, and because of that we still have not missed a single meeting.
- Keep making our scrum meeting focused and concise, because it is more effective this way.
- Continue making great progress in our App (coding and setting up the backend).

Work completed/not completed:

Completed:

- (4) “As a user”, I want to see the main skeleton (navigation, different views) of the IOS app to match the mock up design –sans functionality-.
- (2) “As a user”, I want to log in securely into the IOS app using some form of authentication that protects my information.
- (3) “As a developer”, I want to Implement the user login using Firebase authentication.
- (4) “As a user”, I want to have a well Designed tab menu to replace the side menu in the Android app version.
- (5) “As a developer”, I want to Replicate the SplitView functionality with ViewControllers one

Not-Completed:

- none.

Work completion rate:

Total user stories completed: 5

Total work hours/points completed: 18

Total days during sprint: 14
