Sprint 1 Report
–Split The Tab IOS Version-
The commuters
Sprint Start Date: Jan 22nd 2018
Sprint End Date: Feb 3rd 2018
Revision 1 (2/3rd/2018)

Actions to stop doing:
- We should stop planning/researching too much, although it's a crucial step for project preparation, sometimes learning as you go is more effective, especially under short time constrains.

Actions to start doing:
- we should start coding as soon as possible. This will allow us to start making progress in our project to present at the end of the quarter.
- we should hold more meetings where we can learn from each other, which will make learning progress much faster.

Actions to keep doing:
- Keep having our scrum meetings at 3:40pm, it's convenient for everyone, and because of that we have not missed a single meeting.
- Keep making our scrum meeting focused and concise, because it is more effective this way.

Work completed/not completed:
Completed:
- (2) "As a developer", I want to Get familiar with iOS.
- (3) "As a developer", I want to Research the network protocols for iOS.
- (4) "As a developer", I want to Discover the differences between Android and iOS APIs in regards to Firebase.
- (3) "As a user", I want to see a general mock up of the design of the IOS app.

Not-Completed:
- none.

Work completion rate:

Total user stories completed: 4
Total work hours/points completed: 12
Total days during sprint: 14

	Days		Done	Remaining	Ideal Done Per Day	Ideal Velocity
